SPECIAL LECTURES

Two intriguing and brilliant lectures for a very wide mathematical audience.

Friday 25 August 2006

International Congress of Mathematics 2006, Madrid

- 18:00 – 18:15 LMS Business
- 18:15 – 19:00 Robert Bryant (Duke University, USA)
tba
- 19:15 – 20:00 Godfried Toussaint (McGill University, Canada)
Musical rhythm and computational mathematics

This is part of the Program of Special Activities being held during the ICM 2006 in Madrid. An ordinary meeting of the LMS will be held just before these lectures, during which members will be able to sign the membership book.

As they become available more details can be found at
www.icm2006.org/scientificprogram/specialactivities/
